PROFESSIONAL DEVELOPMENT WORKSHOP

speech pathology TASMANIA

Circle of Security Classroom™
Building Secure Educator–Child Relationships

About

Format: In-person or online via MS Teams **Length:** 8 x weekly/fortnightly sessions (2hrs each)

This professional development program supports educators to deepen their understanding of attachment and how it shapes children's emotional security, behaviour, and learning. Through a reflective, discussion-based approach, participants build practical strategies to strengthen relationships and create calmer, more connected early learning environments.

Facilitated by: Rosalie Martin, Circle of Security Classroom™ Facilitator, Senior Speech Pathologist, Criminologist, Dialogue Facilitator, 2017 Tasmanian Australian of the Year.

Suitable for: Early childhood educators, room leaders, educational leaders, inclusion support staff, and early learning service teams. This includes both new and experienced professionals working directly with children in early learning settings.

Logistics:

- Training dates to be negotiated to suit both parties.
- The enquirer (business or organisation) will provide a suitable venue for the training group.
- Access to a projector or large smart TV screen is required.
- A quote will be provided on request (depending on location and any additional requirements).
- Each participant will receive a certificate of completion.

What's included

Goals of the training:

- Understand the core principles of attachment theory and secure relationships.
- Identify children's attachment needs and emotional cues in practice.
- Strengthen educator–child relationships through responsive interactions.
- Apply attachment-informed strategies to support regulation and behaviour.
- Reflect on the educator's role in co-regulating and building security.

What you'll explore:

- The Circle of Security framework and key attachment concepts.
- What children's behaviour is communicating about their emotional needs.
- The educator's role as a secure base and safe haven.
- How relationships directly influence regulation, learning, and behaviour.
- Practical ways to respond that build trust, safety, and connection.
